OUR KITCHEN WORKTOPS BUYER'S GUIDE

YOUR GUIDE TO BUYING THE PERFECT STONE KITCHEN WORKTOPS

Investing in new stone kitchen worktops is a big step—and one that can transform your kitchen into the heart of your home. We know it's an important decision, and it's normal to feel a little overwhelmed at first. But here's the good news: the process is simpler than you think!

At Marble Supreme, we make it our mission to ensure the journey to your dream kitchen is as smooth and stress-free as possible. With the right guidance and preparation, your stunning, custom worktops will be ready before you know it.

This guide is designed to help you every step of the way. Inside, you'll find:

- **How to Get an Accurate Quote**

Discover the key details we need from you to provide a fast, precise quote—often within just 30 minutes.

- **Our Measuring and Fitting Process**

Learn about our streamlined approach to ensure a perfect fit for your worktops, with minimal disruption to your home.

- **Preparing Your Kitchen for Installation**

Get practical tips to make sure your kitchen is ready for a smooth fitting day.

- **Our Guarantees and Peace of Mind**

Find out about the premium materials we use, our craftsmanship guarantees, and how we prioritise your satisfaction.

PRE-PURCHASE PREPARATION

We'd love to welcome you to our Bristol showroom, whether you're just browsing or ready to take the next step. However, if you're looking for a quote on your new kitchen worktops, a little preparation beforehand can make the process quicker and easier.

1. CHOOSE YOUR COLOUR

Selecting the right stone for your kitchen starts with choosing a colour that complements your style and space. We offer a wide selection of granite and quartz in a stunning array of colours and tones. Before visiting our showroom, take a moment to think about the look you're after:

- **Colour:** Are you leaning toward classic white, bold black, or something more unique?
- **Tone:** Would you prefer a lighter, brighter finish or a rich, dramatic feel?
- **Pattern:** Do you love the idea of uniform, consistent patterns or the natural charm of unique veining and textures?

2. BRING SWATCHES FOR INSPIRATION

When you visit our showroom, bringing swatches of your kitchen's key elements—such as flooring, cabinets, and wall colours—can make a world of difference. Seeing your selected stone alongside these colours allows you to visualise how everything will come together, ensuring a cohesive and stunning final look.

3. KNOW YOUR BUDGET

While a new stone worktop is a lasting investment, it's always helpful to come in with a clear idea of your budget. Our worktops, including measuring and fitting, start at just £2,000. Of course, once you see the incredible options available, you may decide to stretch your budget a little further to achieve your dream kitchen!

4. HAVE YOUR MEASUREMENTS READY

To provide you with the most accurate quote, we'll need the measurements of the areas where your kitchen units will be fitted. If you're purchasing a new kitchen, the plans provided by your kitchen supplier are perfect for this. If not, even a rough sketch with approximate dimensions will help us get started.

5. DECIDE ON YOUR SINK TYPE

It may not seem like a big deal, but your sink choice plays an important role in your kitchen's design. Whether you're opting for an under-mount or over-mount sink, it can affect how your worktops are cut and fitted. If you have digital details or specifications from your sink supplier, bringing them along will make the process much smoother.

6. DON'T FORGET THE DETAILS

It's often the little details that bring a kitchen design together. Before your consultation, consider whether you'd like to include:

- Splashbacks
- Upstands
- Edging styles (e.g., bullnose, chamfered, or double pencil)

Not sure about any of these? Don't worry—our team is here to guide you through all the options and help you make the best choices for your space.

ARRANGE A CONVENIENT CONSULTATION

Once you've narrowed down your colour, pattern, and budget preferences, we'd love to welcome you for an informal consultation at our Bristol showroom. During your visit, we'll use the details you provide to guide you through our stunning range of stones that perfectly complement your kitchen (or plans for your future kitchen).

Once you've chosen your material, we'll provide you with a clear estimate of the cost. When you're happy to proceed, we'll arrange the next steps: precise measuring, templating, and expert fitting—bringing you one step closer to your dream kitchen.

WANT A KITCHEN FROM AN EXTERNAL SUPPLIER, WITH WORKTOPS FROM US? NO PROBLEM!

Many of our clients come to us after purchasing their kitchen carcasses from another supplier and wonder if we can fit our stone worktops onto their pre-built units. The answer is a resounding yes!

We specialise in expertly crafting and fitting unique marble, quartz and granite worktops to suit any kitchen setup. Our team's skill and attention to detail ensure a flawless finish, no matter the design of your kitchen.

Our reputation for our highly-skilled workmanship speaks for itself—scan the QR code below to take a look at our Google reviews and see why so many homeowners trust us to bring their dream kitchen to life.

INSIDE OUR MEASURING, TEMPLATING AND FITTING PROCESS

Our craftsmen bring a wealth of traditional knowledge, skills, and honoured techniques to every project. Trained by masters of the trade, they not only excel in their craft but also pass their expertise to the next generation of apprentices. This dedication to excellence allows us to take on complex, demanding projects that many other stone suppliers wouldn't dare attempt.

What does this mean for you? A seamless process and results that are nothing short of immaculate.

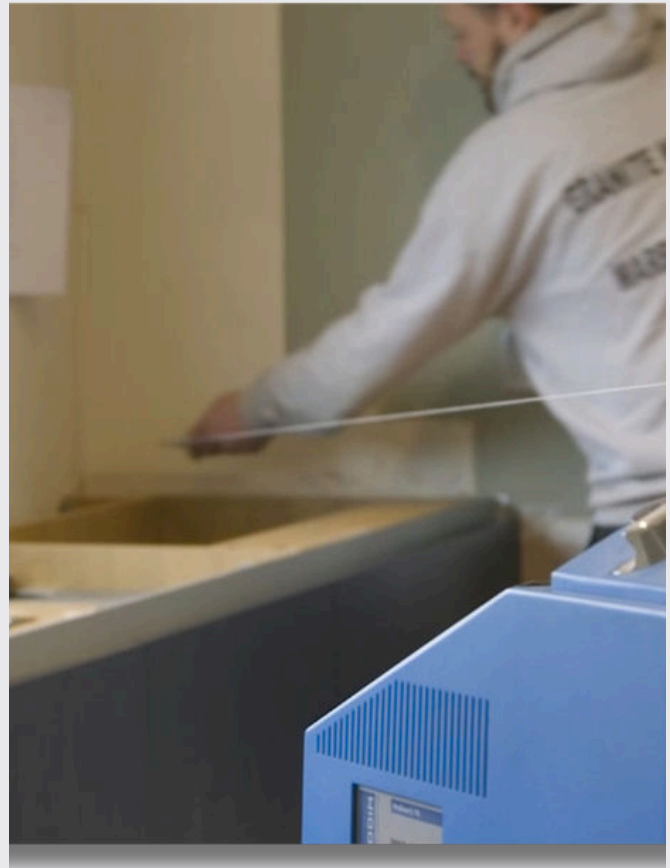

Here's what you can expect during your journey with us—what happens at each stage, and what we'll need from you to make it as smooth and efficient as possible.

STAGE ONE: MEASURING AND TEMPLATING

The first stage of your kitchen worktop installation is all about precision. Once your kitchen carcasses are installed, our team will visit to take exact measurements and create templates for your new stone worktops.

This stage is crucial, as getting the measurements right ensures a flawless fit during the second stage. To avoid any surprises later, we recommend having someone with knowledge of the project present during the measuring and templating. This way, we can address any questions or concerns on the spot. On average, this process takes about 2 hours.

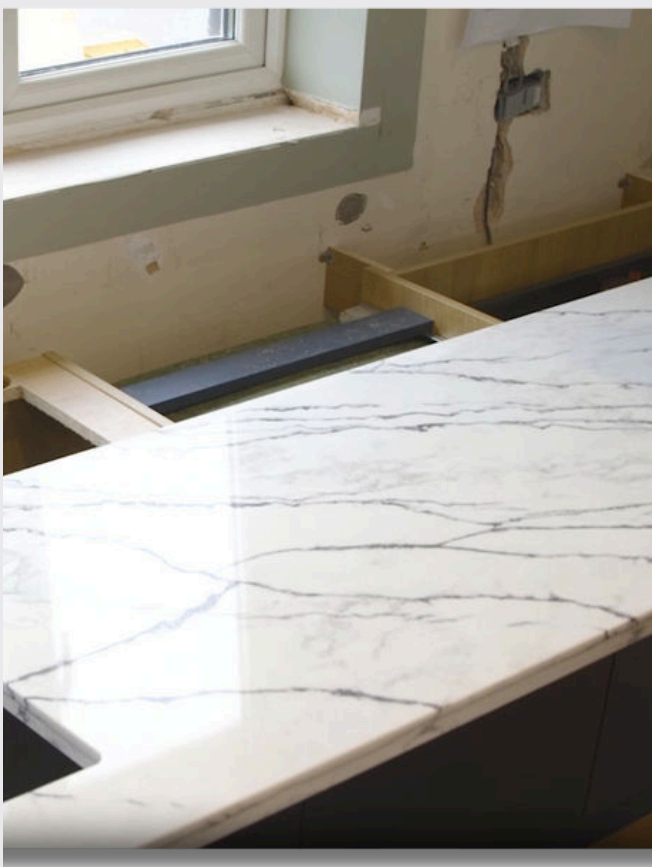

STAGE TWO: FITTING

In this stage, we bring your vision to life by fitting your brand-new stone worktops.

Typically, the fitting happens about 10 days after the measuring and templating process

It's important to remember that we don't handle plumbing or electrical work, so please ensure any necessary plumbing or electrical work is completed before the fitting day to avoid delays.

Our experienced fitters will complete the installation in around 4 hours, transforming your kitchen in a matter of hours!

KITCHEN WORKTOP PREPARATION CHECKLIST

All units and furniture fixed in their intended place.

Taps, hobs, sinks and white goods need to be on site and ready to install.

Have the sink templates to hand (preferably digital templates).

Fix any undermounted sinks in their support cradles, with the top of the sink flush with the top of the carcass.

Any existing worktops that are being replaced need to be removed before fitting.

PRODUCT & WORKMANSHIP GUARANTEES

We're confident that you'll be more than happy with our workmanship and the quality of materials we use. Scan the QR code below to take a look at reviews from our happy customers.

To back this up, our materials are covered by warranties and guarantees, depending on what you choose. Please ask us about these when you come in and see us.
